

The world's first social impact token

Revolutionizing the world's payment systems with measurable social impact.

Using the Kindly coin or the Kindly suite of applications results in the delivery of meals to children in need or abused animals, or the planting of trees. **You win, children win, animals win and the planet wins!**

CERTIK

Social impact
certification:

Most consumers today are demanding that companies not only be socially responsible but that they also give back in a meaningful way. In fact, 71% of young consumers will even change brands if one is more charitable than the other. This same social responsibility and transparency is expected of cryptocurrency.
